Alternate Well Is Completed Recently For Town Of Zearing

By Mrs. Claude Manning

A new 100 ft. well has recently been completed in Zearing. The well is situated on lots, south of the Zearing town hall, which were purchased from the county some time ago. A test pump at the well shows that it produces 210 gallons of water a minute.

When chlorine tests are completed it is planned that the new well will be used alternately with the one now in use.
