ATTN: Fred Arndt

Dear Fred:

Enclosed please find copies of the construction log of the recently constructed Cedar Valley well for Dakota City, along with the test pumping results from that well.

The final pump was designed at 240 gallons per minute at 243' total dynamic head and set at 236' below ground level.

Trusting this is the information requested, we remain,

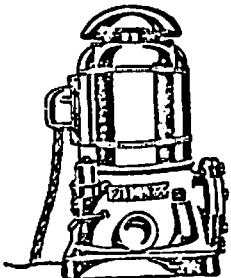

Yours truly,

VARNER WELL AND PUMP COMPANY

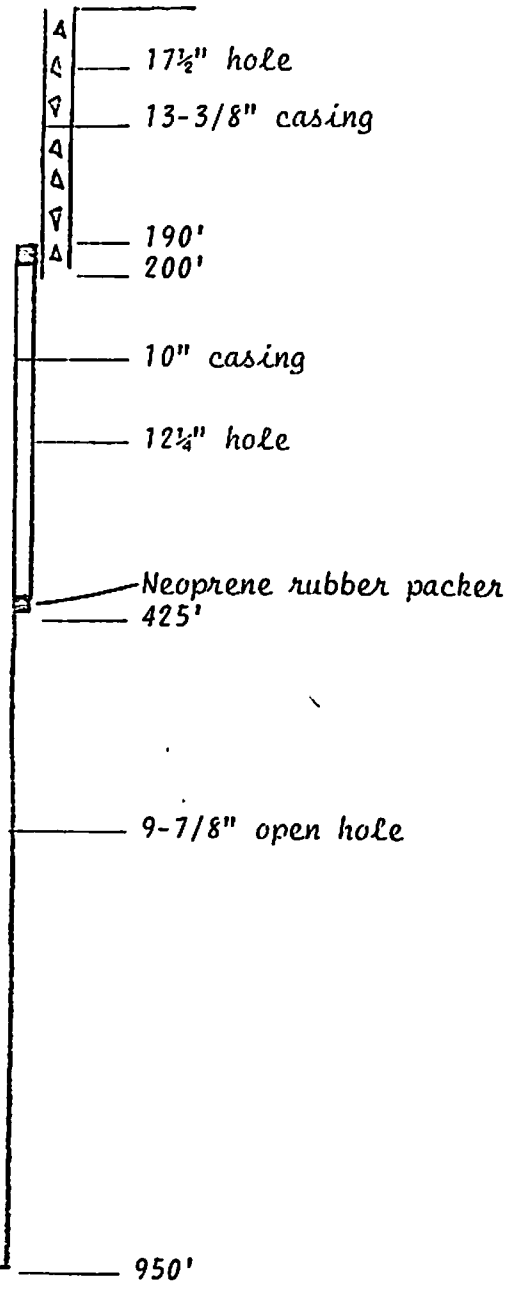

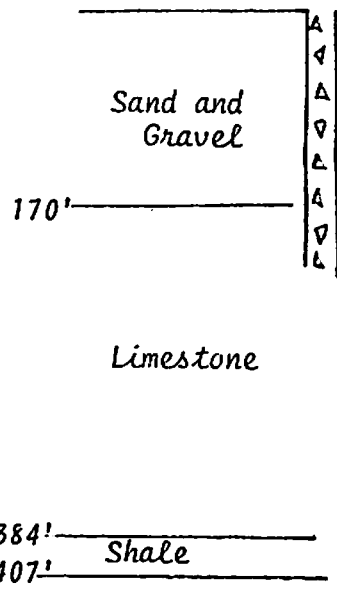

Terry Nauman
